

**Representing finishing professionals in surface engineering
and coatings since 1925**

G.B. Plating Limited General Manager

A well established chromium and nickel plating Company based in Basildon Essex seeks a General Manager.

Your main duties will be to manage all plating and surface treatment operations on a die range of tooling and components.

This would also include polishing, and a grinding facility used in the refurbishment of rollers and pistons.

Other key responsibilities:

Take overall responsibility to meet production deadlines across all departments.

Work closely with our customers.

Ensure quality standards are continually met.

Experience:

As the successful candidate you will have previously worked in a similar surface treatment facility, and experience in an engineering manufacturing environment would be advantageous.

We are an equal opportunity employer
