### HON. EDITOR

J.P.G. Farr, BSc, PhD, FRSC, FIMF

### MANAGING EDITOR

Clive Larson, BSc, MIMF

### PRICE

Non Members £31.00 per copy or £145  
annual subscription (6 copies)

Typeset by The Midlands Book Typesetting  
Company, Loughborough  
Printed by Quorn Selective Repro,  
Loughborough.

Institute of Metal Finishing.  
ISSN No: 0020 2967

Minutes of the Annual General Meeting .....	1
The 21st Hothersall Memorial Lecture - A tale of two billion, by S.A. Watson .....	10
Replacing TCA and CFC-113 with HFE and HFC based Azeotropes and n-Propyl Bromide based solvents for wipe cleaning metal components - source evaporation rates and model, by A.F. Averill, J.M. Ingram and P.F. Nolan .....	16
Novel room temperature molten salts for aluminium electrodeposition, by A.P. Abbott, C.A. Eardley, N.R.S. Farley and A. Pratt .....	26
Physico-chemical properties of Zn-Co alloy deposits from an alkaline sulphate bath containing triethanolamine and gelatin, by V. Narasimhamurthy and B.S. Sheshadri .....	29
Effect of some plating parameters on the electrodeposition of Zn-Co alloys from aqueous citrate baths, by S.S. Abd El Rehim, M.A.M. Ibrahim, S.A. Abd El Wahaab and M.M. Dankeria .....	31
The role of Cu(II) in the process of forming non-stoichiometric copper sulphide coatings by a chemical route, by J. Vinkevičius, G. Vailienė and A. Moželiene .....	37
Preparation of anisotropic conductive fine particles by electroless nickel plating, by I. Motizuki, K. Izawa, J. Watanabe and H. Honma .....	41
Mechanism of boron codeposition in electrodeposited Ni-B alloy films and calculation of the amount of codeposited boron, by M. Onoda, K. Shimizu and Y. Tateishi .....	44
Treatment of COD bearing electroless plating solution by UV irradiation, by H. Watanabe and H. Honma .....	49
Preparation and characterization of Cu-MoS <sub>2</sub> composite coatings, by Y.Z. Wan, Y.L. Wang, H.M. Tao, G.X. Cheng and X.H. Dong .....	52
Hydraulic bulge test of electrodeposited copper foil, by H.D. Merchant and M.G. Rozboril .....	55
Enhanced wear resistant nickel-based alloy coatings produced by high velocity oxy-fuel spraying by A.H. Dent, A.J. Horlock, S.J. Harris and D.G. McCartney .....	60
Application of silane technology to prevent corrosion of metals and improve paint adhesion, by T.F. Child and W.J. van Ooij .....	64
Use of zinc alloy coatings on steel cord reinforcement in vehicle tyres, by H. Yan, J. Downes, P.J. Boden and S.J. Harris .....	71
Effects of the compounds containing different valence sulfur on the electrocrystallization of nickel, by Can-zhu Gao, Yu-li Lu, Shu-bin Yue and Hai-tao Wang .....	75
Studies of electroless nickel deposits with low phosphorus content, by Y.Z. Zhang and M. Yao .....	78
Preparation and characterization of electroless Ni-P and Ni-P-Si <sub>3</sub> N <sub>4</sub> coatings, by J.N. Balaraju and S.K. Seshadri .....	84
Potentiostatic deposition of thin films of Ni-Fe alloys, by C.L. Aravinda and S.M. Mayanna .....	87
Physical properties of Ni-Cu microlayer films obtained by pulse electrolysis, by V.A. Zabludovsky and V.S. Gribok .....	89
The role of Cu(I) in the process of forming Cu <sub>2</sub> S coatings by a chemical route, by J. Vinkevičius, G. Vailienė and A. Moželiene .....	91
Acid- and alkali-resistant film generation on an Al-Mn-Ce alloy, by A.C. Crossland, G.E. Thompson, P. Skeldon, C.J.E. Smith, H. Habazaki and K. Shimizu .....	95
Preparation, structure and corrosion properties of electroless amorphous Ni-Sn-P alloys, by Xie Haowen, Zhang Bangwei and Yang Qiaoqin .....	99
Study of some properties of the electrolyte solution in the electrodeposition of palladium, by Fang-zu Yang, Shu-Kai Xu, Ling Huang, Zhen-liang Li and Shao-min Zhou .....	103
The growth mechanism of the coloured passive film formed on 304 stainless steel in sulphuric solution without Cr <sup>6+</sup> ion by using A.V. passivation, by Zhang Junxi, Chen Jian, Qiao Yan and Cao Chunan .....	106
The use of pulsed current techniques for electrodeposition of platinum, by S.E. Hadian and D.R. Gabe .....	108
Comparison of the switching behaviour of electrodeposited silver and silver-cadmium alloys contact materials, by M. Mateescu and M. Preda .....	112
Expert system to identify anodic coating process defects. 1: the contribution of neural networks, by A.W. Brace .....	115
Expert system to identify anodic coating process defects. 2: compiling hypertext database, by A.W. Brace .....	120
The electrodeposition of nickel, solderable and wear-resistant nickel-boron alloys from low concentrated colloid electrolytes, by L.A. Degtjar, B.U. Dubov, I.D. Kudrjatzeva and F.I. Kukos .....	123
Solution conductivity in electrodeposition processes, by G. Guvendik and D.R. Gabe .....	127
Energy conservation in chromium plating through use of non-conventional anodes, by A.J. Rethinam, R.M. Krishnan, S. Jayakrishnan and S. Sriveeraraghavan .....	132
Cathode growth stability of electrodeposited metal matrix particulate compositions, by B. Bozzini .....	135
Electrodeposition of thick chromium coatings from a chromium (III) - glycine complex, by M. El-Sharif, J. McDougall and C.U. Chisholm .....	139
Determination of ClO <sub>2</sub> in the presence of other O-Cl species, by J.P.G. Farr and C.M. Mustafa .....	145
New insight into the anomalous codeposition of alloys, by Zelin Li, Jiale Cai and Shaomin Zhou .....	149
An electrochemical evaluation of possible non-chromate conversion coating treatments for electrodeposited zinc-nickel alloys, by J.A. Wharton, G.D. Wilcox and K.R. Baldwin .....	152
Some regularities of formation of Cu <sub>2</sub> S coatings, by J. Vinkevičius .....	159
The materials properties and contact reliability of Pd-Co, by J.A. Abys, E.J. Kudrak and C. Fan .....	164
Electrochemical cell reactions, by F. Walsh and G. Ottewill .....	169
Anodizing of Al in borax solution, by A. Pakes, G.E. Thompson, P. Skeldon, P.C. Morgan and K. Shimizu .....	171
High speed electroplating in low-concentrate colloid-electrolyte baths, by I.D. Kudrjatzeva .....	178
Effects of complexing agent on the morphology and porosity of electroless nickel deposits, by Ying Jin, Dongbai Sun, Jingzhi Yu, Chaofang Dong and Dejun Yan .....	181
Studies on the mechanism, structure and microhardness of Ni-W alloy electrodeposits, by L. Huang, J.X. Dong, F.Z. Yang, S.K. Xu and S.M. Zhou .....	185
Electroplating of Ni from aqueous gluconate baths, by E.A. Abd El Meguid, S.S. Abd El Rehim and E.M. Moustafa .....	188
Effects of saccharin and pyridine derivatives on the electrocrystallization of nickel, by Can-zhu Gao, Yu-li Lu, Hai-tao Wang and Shu-bin Yue .....	192
TiN coatings modified by an interlayer of electroplated chromium on mild steel, by K. Singh, D.N. Wasnik, A.K. Grovier, M.K. Totlani and A.K. Suri .....	196
An ellipsometric, XPS and electrochemical study of the passivity of zircaloy-2, by S.V. Phadnis, A. Bose and M.K. Totlani .....	200
A study of the dispersion of solvent vapour in the workspace during wipe cleaning of metal components with organic solvents - a Monte Carlo Uncertainty Analysis, by A.F. Averill, J.M. Ingram and P.F. Nolan .....	204
The speed of metal deposition and dissolution, by G. Ottewill and F.C. Walsh .....	209
Coulometric techniques for surface coatings [Review], by D.R. Gabe .....	213
Electrodeposition of nickel from perchlorate based electrolytes, by S. Sriveeraraghavan, G. Senthilnathan, C. Joseph Kennedy, A. Ganesh Kumar, R.M. Krishnan, S. Jayakrishnan, S.R. Natarajan and K. Balakrishnan .....	218
Texture development in electrodeposited nanocrystalline Ni-Mn-Fe alloys, by M.V. Ananth .....	222
Characterisation of a RuO <sub>2</sub> film thermally deposited on a titanium support, by L.X. Yang, J.P.G. Farr, M.A. Ashworth and J.M. Charnock .....	226
On the performance and mechanism of ultrasonically cleaning metal components with environmentally acceptable organic solvents, by A.F. Averill, J.M. Ingram and P.F. Nolan .....	230
Investigation of the interaction between Cu <sub>2</sub> S and S <sup>0</sup> coatings and Pd(II) ions by cyclic voltammetry and X-ray photoelectron spectroscopy, by J. Vinkevičius, I. Možginskienė and V. Jasulaitienė .....	237
Electrodeposition of copper-nickel alloys from a citrate bath containing boric acid, by S.S. Abd El Rehim, S. Abd El Wahab, S.M. Rashwan and Z.M. Anwar .....	242
Research on the structure and the corrosion resistance of Zn-Co alloy coating, by Tu Zhang-mi, Yang Zhe-long, An Mao-zhong, Li Wen-liang and Zhang Jing-shuang .....	246
Moles, molecular masses and relative molecular masses in metal finishing, by G. Ottewill and F.C. Walsh .....	248
Indexes .....	250
